Project Name:

Swag Labs

Project Goal:

To develop an integrated **e-commerce platform** for selling **T-shirts, lamb, and jackets**, providing customers with a seamless shopping experience. The platform will enable users to **browse, compare, and purchase products easily** while ensuring secure transactions, efficient order management, and real-time inventory updates.

Impact on Society/Industry:

- Enhances the shopping experience with a **reliable and user-friendly platform**.
- Supports local and global markets by **expanding product accessibility**.
- Encourages **small businesses and artisans** by offering a digital sales channel.
- Promotes industry growth by fostering **fair pricing and competition**.
- Creates job opportunities in **logistics, marketing, and customer support**.
